

Further Mathematics A Level

Congratulations on choosing to study A Level Further Mathematics. To help you prepare, this booklet will enable you to brush up on some of the skills you have learned at GCSE. You are going to need them from day 1, and if you do not have a good grasp of the basics then you need to work on them NOW so that you can start with confidence.

Studying A Level Further Mathematics is about learning how to solve problems, and getting stuck is part of the learning process. You should expect to get stuck while working through this booklet but these are all GCSE techniques that you will need to master.

Please complete all the questions, then check your answers. If you get something wrong, revise the topic, then try again. The aim is to get EVERYTHING right! Please bring the completed booklet with you to your first maths lesson.

Enjoy the summer break and we look forward to meeting you after the holidays.
